# Lilies

Madonna Lily

"Consider the Lilies, how they grow; they toil not, neither do they spin; and yet I say unto you that Solomon, in all his glory, was not arrayed like one of these."

## Regale Lily

If the garden is too small to admit many Lilies, by all means grow Regale, as it will stand a rigorous climate and will respond to fair treatment. The flower stems are slender and flexible, but tense as steel and from 3 to 5 feet tall. Flowers are funnel-shaped, ivory-white with soft yellow throat. Bulbs may be planted in spring as well as the fall. Bloom in July.

Large bulbs ..... Each, 65c; 3 for \$1.75; doz., \$6.50  
Medium size bulbs ..... Each, 50c; 3 for \$1.35; doz., \$4.75

## Lilium Candidum (Madonna Lily)

It is the best known and most beloved. It thrives in all kinds of soil and exposure to sunshine. The bulbs should not be planted deeply, a covering of 2 inches above the bulb being sufficient. Snow-white flowers, richly perfumed. Bloom in June-July.

Large bulbs ..... Each, 60c; 3 for \$1.60; doz., \$5.75  
Medium size bulbs ..... Each, 40c; 3 for \$1.10; doz., \$4.00

## Lilium Tenuifolium (Coral Lily)

A narrow-leaved, slender growing and most attractive little Lily from Siberia, growing on an average of 18 inches, with numerous deep scarlet, waxen, recurved flowers on wiry stems. Blooms June. Plant about 4 inches deep.

Top size bulbs ..... Each, 25c; 3 for 65c; doz., \$2.50

# Dutch Hyacinths
